**Decisions**

- Postpone discussion on Ag MMs until November 4 when Alan and Roberta can attend.
- Make sure NOAA/EPA's questions asked and comments on agricultural MMs received during the public comment period are included in the Response to Comments document but use a general language\* as shown below as the response. Send separate correspondence to Oregon outside of this decision (but as soon as possible after Jan 30) on concerns on ag MM and possible ways to address them.
- No need to classify the state submittal as a comment or not. Instead will make sure that all comments contained within the state's submittal provided during the comment period are reflected in the response to comments.

*\*Potential wording in Response to Comments document: "NOAA and EPA invited public comment on the adequacy of Oregon's programs and policies for meeting the 6217(g) agriculture management measures and conditions placed on Oregon's Coastal Nonpoint Program. The federal agencies appreciate the comments received and will consider them closely. However, the December 20, 2013, proposed findings did not propose a specific decision on whether or not Oregon had satisfied the CZARA 6217(g) agriculture management measures. Since the public did not have an opportunity to comment on a specific proposed decision and rationale for that decision, the adequacy of Oregon's*

*agriculture programs is not a basis for the final findings that Oregon has failed to submit an approvable coastal nonpoint program. The public will have an opportunity to comment on NOAA and EPA's proposed decision regarding the agriculture management measures at a later date."*
